Residents requested an update on the allotments at the Persimmon development. Councillor Moore reported that he is now in his third round of correspondence with Persimmon, referencing the Section 106 agreement they signed, which stipulates that ownership of the allotments would be transferred once 23 units had been sold. It was noted that over 47 units are currently occupied. The Council continues to pursue the matter to ensure the allotments are made available as agreed.

A question was raised regarding the CIL funding Wishlist item for dropped kerbs near Redwald Road. It was explained that funding could be used to install additional dropped kerbs to improve accessibility for wheelchair users and those with prams, enabling safer and easier access to footpaths.

He shared several initiatives that have been funded during this period, expressing pride in the progress made. Tim also highlighted a live public poll from East Suffolk Council seeking residents' views on the potential formation of a unitary authority. The council has said that the public input is considered vital to shaping an outcome.

He further reported that a traffic survey is planned to assess the volume of HGV traffic travelling from Melton to Bentwaters. This will help determine whether the road requires significant upgrades and inform discussions around potential solutions for the Melton Crossroads. Additionally, he mentioned that Bentwaters is being considered as a possible alternative site for the recycling depot currently located in Ufford, though discussions are still ongoing.

Tim finished by saying that it was great to see so many councillors around the table and he acknowledged that it has been a challenging year, but said it was heartening to witness the solidarity and positive energy in the room.
